

Mission Statement

In nomine Patris, et Filii, et Spiritus Sancti, the Saint Padre Pio School for the Relief of Suffering, College of Osteopathic Medicine, educates osteopathic physicians, in a faithful Catholic framework, to treat the sick, relieve suffering, and thereby evangelize the Good News of Jesus Christ.

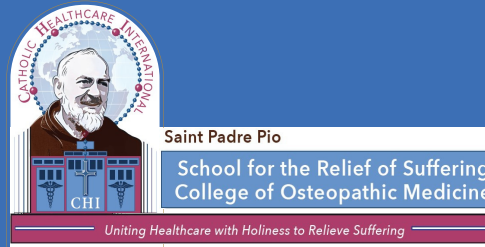

The school is adherent to Ex Corde Ecclesiae and dedicated to the formation of men and women in the intellectual and moral virtues of the Catholic faith.

**FOR I HAVE COME TO BRING
FIRE UPON THE EARTH.**

Luke 12:49

Saint Padre Pio School for the Relief of Suffering College of Osteopathic Medicine is a subsidiary of Catholic Healthcare International.

The Saint Padre Pio School for the Relief of Suffering, College of Osteopathic Medicine is an Independent, separately licensed, accredited, governed and financed entity that will reside on the campus of a faithful Catholic University. The Saint Padre Pio School for the Relief of Suffering, College of Osteopathic Medicine is proposed and seeking accreditation. It is not yet licensed or accredited by any organization and does not have permission to recruit or solicit students, make offers of admission, or begin instruction, and nothing in this presentation should be construed as such.

"In a time of fear and confusion, in a culture of death and temporal self-interest, now, more than ever, the world needs physicians who will, like Jesus Christ, be peaceful warriors and stand for the life and dignity of every human being."

**CREATING THE NATION'S
MOST FAITHFUL CATHOLIC
MEDICAL COLLEGE.**

*Proposed

"Catholic Healthcare International represents one of the most important works of the Church in our time, namely to foster healthcare after the example of our Lord Jesus Christ."

Cardinal Burke
Episcopal Advisor

- American culture is in decline.
- Abortion, gender fluidity, euthanasia and secular humanism are celebrated.
- Faithful Catholic physicians have no support.
- Faithful Catholic medical students cannot find acceptable training opportunities.
- Faithful Catholic patients struggle to find ethical physicians who support their faith and choices.

There is Not a Moment to Waste

- Every day, over 2,300 abortions are performed in the US.
- Assisted suicide gains greater acceptance every day. The disabled, very young and very old are increasingly seen as "life unworthy of life".
- Forced gender reassignment is being touted for toddlers and children.

This. Stops. Now.

Saint Padre Pio School for the Relief of Suffering College of Osteopathic Medicine

Catholic Healthcare International is creating the nation's most faithful Catholic medical school.

- A school that believes a person is a confluence of body, mind and spirit.
- A school that values human life, from conception to natural death.
- A school that calls abortion and euthanasia the murder they are.
- A school that will train generations of new physicians to practice faithfully, under the Magisterium of the Holy Catholic Church.
- A school that will, by its graduates' practice, evangelize the good news of Jesus Christ.

Demand for ethical medical education is extremely high. The school should receive in excess of 5,000 applications per year for 150 available spaces.

Bishop Boyea
Episcopal Advisor

"What intrigues me the most is actually building a Catholic medical school where Catholic students who, at other schools, might have been feeling pressured into engaging in certain medical procedures that they would rather not, find that not to be the case here."

How you can help

Pray.

The School for the Relief of Suffering and the Home for the Relief of Suffering hospital are built upon a foundation of prayer. Consider joining the first Worldwide Eucharistic Adoration program at CHI-ADORATION.com.

Donate.

Your generous gift will train hundreds of physicians in the next ten years who will treat thousands of patients, and will save lives, families, and our culture. Your gift will have an impact for generations to come. For more information or to donate go to CatholicMedicalSchool.com.
